WELCOME

This handbook has been prepared to assist employees in knowing their rights, responsibilities, and benefits as District employees. It is not meant to imply a permanent contract between the employee and the District, but rather has been put together to provide basic information to the employee. It may be altered as laws and District policies and procedures change.

Employees working with the collective bargaining agreement should consult their union contract as those agreements may differ from District policy.

Employees should feel free to seek assistance from their immediate Supervisor, Department Head, or payroll personnel in their office. If staff members have any concerns about their job, they are encouraged to discuss these issues with supervisory personnel. Employees will be provided with the names and positions of all persons in their immediate department to assist them in becoming acquainted with co-workers.

EMPLOYMENT

Equal Employment Opportunity Policy

29 CFR Part 1614

The Northwestern Water and Sewer District is an Equal Opportunity Employer and the District and its employees will not discriminate against any employee or applicant for employment because of race, religion, color, sex, pregnancy, sexual orientation, genetic information, national origin, age, marital status, ethnic heritage, disability, or veteran status. All personnel decisions will further the above non-discrimination policy with respect to the following personnel actions:

1. Recruitment
2. Hiring
3. Training
4. Job Assignments and Reassignments
5. Compensation
6. Benefits
7. Promotions
8. Transfers
9. Layoffs
10. Returns from layoff
11. Upgrades
12. Terminations
13. Rates of pay

Supervisors will ensure that their respective departments comply with the District's Equal Employment Opportunity Policy as outlined above.

Affirmative Action Policy

ORC 4112.02

Consistent with the District's commitment to Equal Employment Opportunity, the District has an Affirmative Action Policy. The District will not consider race, religion, color, national origin, ethnic heritage, marital status, sex, pregnancy, sexual orientation, genetic information, age, or disability in employment decisions. The District conducts periodic reviews of all employment practices to ensure the District's commitment to equal employment opportunity.

Classified and Unclassified Employees

District employees are by law either “classified” or “unclassified”.

Employees in the classified service have many protections under Ohio’s Civil Service laws. Classified employees may continue employment in their positions during good behavior and efficient service.

Classified employees cannot be suspended, reduced in pay or position, or terminated except for the causes set forth in ORC 124.34. See Employee Discipline Procedures in this handbook. Classified employees who are convicted of a felony forfeit their classified status and are moved to the unclassified service.

Unclassified employees are those persons exempted from classified service by statute; and/or persons employed by and directly responsible to the Board of Trustees who hold a fiduciary or administrative relationship to such Board members. Unclassified employees serve at the pleasure of their appointing authority, i.e., are employees at will.

If you are unsure of your employment status, ask you immediate supervisor.

Job Postings

The President hires the employees for the District, based on recommendations from the management staff.

Existing or imminent classified vacancies above the entry level shall be posted internally for a minimum of five calendar days, except where a laid-off employee is eligible for reinstatement to the vacant position.

During the five day period, any current employee wishing to apply for a vacant position shall submit a written application to the Supervisor or designee. A current staff member who applies and does not meet the qualifications of the position shall receive written notification of non-selection upon filling the position.

If no employees are qualified for the vacant position, or if the vacancy is an entry level position, the job shall be filled from the applications of qualified persons with applications on file or management may advertise by newspaper or through other employment channels.

Current job vacancies may be posted on the Internet at www.nwwsd.org, or on bulletin boards in the office.

Employee Selection

Applicants for classified positions shall be evaluated based on education, training, capacity, knowledge, manual dexterity, and physical or psychological fitness.

An examination may consist of one or more tests in any combination. Tests may be written, oral, physical, demonstration of skill or an evaluation of training and experiences and shall be designed to fairly test the relative capacity of the persons examined to discharge the particular duties of the position for which appointment is sought. Tests may include structured interviews, assessment centers, work simulations, examinations of knowledge, skill, and abilities, and any other acceptable testing methods. If minimum or maximum requirements are established for any experience, they shall be specified in the examination announcement.

Probation

The probationary period for all classified employees is fixed at 180 calendar days. A longer period, not in excess of one year, may be established for specific job classifications upon approval of the President.

Time spent on leave of absence without pay shall not be counted as part of the probationary period. Probationary periods shall be extended by an equal number of days the employee spent in no-pay status.

The President may, with the written consent of the employee, extend an employee's probationary period for up to 60 days to allow additional time to review the employee's performance. Extensions must be approved prior to the end of the employee's original probationary period and the total probationary time shall not exceed one year.

Part-time employees who work a portion of each normal working day shall have their probationary period determined by the number of calendar days following appointment in the same manner as full-time employees. Employees who work an irregular schedule or who work less than the normal number of working days per week shall have their probationary period determined on the basis of time actually worked. A standard 180-day probationary period is equivalent to 1440 hours worked.

The probationary period allows new employees to become accustomed to the duties of their new position and to demonstrate their capabilities to perform those tasks. The performance of the employee during this initial "testing" period is an important factor in the decision to retain the services of the employee during or after the probationary period.

If the service of a probationary employee is unsatisfactory, the employee may be removed or reduced at any time during the probationary period. Employees terminated during their probationary period do not have appeal rights.

Promoted Employees shall serve a probationary period of Ninety (90) days.

Separation

Employees who voluntarily resign from District employment must submit a written resignation to their supervisor at least two weeks prior to the date of departure. Resignations may not be rescinded after the President's written acceptance.

Employees retiring from District service are encouraged to discuss their retirement plans with their Supervisor at least six months prior to their retirement. OPERS recommends that employees file an application for retirement no more than six months, but no less than 30 days, prior to the effective date of retirement. For more information on retirement planning, contact OPERS.

The District conducts exit interviews with employees leaving employment. The interview provides separation information such as payment of vacation and sick leave if applicable, OPERS retirement and refunds, withdrawals from deferred compensation programs, COBRA, etc. Employees must return all issued District property. Failure to return District property may result in prosecution for unauthorized use and/or theft of District property.

Employees who leave service with the District may be eligible to receive a refund of their OPERS contributions three months after termination. The OPERS member handbook clarifies the advantages of withdrawal and of continuing funds. To obtain a refund, secure an application for refund from your payroll officer or the OPERS website at www.opers.org.

Upon the death of an employee, all wages and personal earnings due to the deceased employee shall be paid to the employee's heirs or estate in accordance with ORC 2113.04. Wages and personal earnings include unpaid wages, unused vacation, unused compensatory time for non-exempt employees and a portion of the deceased employee's unused sick leave if the employee was eligible for retirement. See Payment For Sick Leave Upon Retirement Policy. If the total amount due the deceased employee is less than \$5,000, the payment may be made to the employee's heirs, following the order of priority set by ORC 2113.04. If the total amount due the deceased employee exceeds \$5,000, the payment must be made to the deceased employee's estate. Questions regarding benefits and life insurance may be directed to the Finance Department.

Voluntary Separation

An employee in the classified service who is absent from duty habitually or for three or more successive duty days, without leave and without notice may be subject to removal for neglect of duty. Any employee who fails to report to work in this manner is deemed to have voluntarily resigned his/her position.

Disability Separation

An employee who is unable to perform the essential job duties of the position due to a disabling illness, injury or condition may request a voluntary disability separation. A voluntary disability separation occurs when an employee does not dispute his or her inability to perform the essential job duties of the position due to a disabling illness, injury or condition.

An employee who is unable to perform the essential job duties of the position due to a disabling illness, injury or condition may be involuntarily disability separated. An involuntary disability separation occurs when a Supervisor has received substantial credible medical evidence of the employee's disability and determines that the employee is incapable of performing the essential job duties of the employee's assigned position due to the disabling illness, injury or condition.

All affected employees will be advised of their rights should a disability separation become necessary.

OPERS members who participate in the Traditional Pension and Combined Plans may be eligible for disability benefits under the original plan or the revised plan. Employees who had contributions on deposit with OPERS on July 29, 1992, had a one-time opportunity to select coverage under one of these programs. Those employees hired on or after July 29, 1992, are covered only under the revised plan. OPERS members who participate in the Member-Directed Plan are not eligible for disability benefits through OPERS. Under the Member-Directed Plan, the vested portion of the individual account would be available through a refund after OPERS covered employment is terminated. Additional information may be obtained by contacting OPERS.

Layoff Procedures

The District may layoff personnel due to 1) lack of work, 2) abolishment of positions, 3) lack of funds, 4) reorganization, and 5) efficiency of operations. Layoff procedures take into account such factors as type of appointment, status, years of service, and retention points.

Laid-off employees have recall rights for one year and have the option of displacing or "bumping" lower-ranked employees within the same classification series.

All affected employees will be advised of their rights should layoff become necessary.

Prior Service

Employees shall provide written documentation of any prior service credit in the public sector within 120 days of employment. Prior service includes service with the State of Ohio or any political subdivision of the State, i.e., city, township, county, State

University, public school district, Ohio National Guard, etc. Documentation shall include status of service, e.g., full-time or part-time; dates of service; number of bi-weekly pay periods in which services were rendered; and sick leave balance from most recent public employer.

If the service time qualifies, the Board of Trustees will make appropriate adjustments to vacation leave accrual rate and vacation and sick leave balances upon receipt of written documentation.

Employees who left other public sector employment due to conviction of a felony will not receive prior service credit for their previous public sector employment.

Furlough

The Board of Trustees reserves the right to implement the Furlough Policy per state law.

PAY PRACTICES

Hours of Work

The Board of Trustees assigns the hours of operation for each office or department under its control. The President and/or Supervisors assign work schedules for individual employees.

Consistent and reliable attendance is an essential function of every position with the District.

When an employee has work duties which require hours in excess of regularly scheduled work hours, the Supervisor, in consultation with the employee, shall make every effort to adjust the employee's work schedule in the remainder of the standard work week to avoid work in excess of 40 hours. In the alternative, the Supervisor may reduce the number of vacation hours, compensatory time, personal, or other non-sick leave hours requested in the same work week by the number of hours worked in excess of regularly scheduled work hours. Employees who have worked over 40 hours in a standard work week may request that the extra hours worked be used to reduce sick leave requested in the same work week.

Public accountability requires employees to document time worked including starting and ending times performing job duties in addition to all other compensated time.

Attendance at lectures, meetings, and training programs is not considered time worked if the employee's attendance is voluntary, i.e., not approved by the President and/or Supervisor.

Material and Parts Recovering

In the event that employees are required to pick up parts/materials, one person shall proceed on this task unless otherwise approved by a supervisor. A second person to ride "shotgun" will not be tolerated.

Prior to driving to retrieve parts/materials, employees shall call by telephone and/or make an attempt to know if the supplier has the proper items. Purchase orders are required for all purchases and need to be approved by the supervisors, except in emergencies.

Shop Parts and Inventory

Most, if not all, parts and equipment have their usual location for placement and storage. During the end of work shifts and the end of overtime, cleanup time or down

times, employees shall ensure that all materials and equipment are returned to their designated areas. This activity does not require direction from supervisors.

Inventory supplies will be replenished when levels are being exhausted. Employees shall bring low levels of supplies to the supervisor or dispatcher=s attention prior to using the last part of any one item because some items may take several days to restock.

All deliveries or pick-ups of parts/supplies require a receipt or packing slip. All such slips will be submitted to the dispatcher or supervisor on a daily basis for accountability. Parts and supplies will be added to the inventory list daily as well to update the necessary schedules.

Shop Security

At the end of each work day, all buildings and gates are to be locked and secured. Every employee being the last to leave the work location will be responsible. All District-owned vehicles shall be stored in buildings whenever possible. When vehicles are left outside, keys to the vehicle shall be pulled and hung in the vehicle mechanic's office.

Daily Work Assignments

Each employee shall assume that each work day will result in them working in their classified position. This will not be abused but a supervisor may assign a more senior/qualified person to fulfill assignments as needed. An attempt will be made on daily projects/work assignments to be given to the most senior employee of the crews. Daily assignments may be broken into one large crew, two (2) to three (3) man crews, two (2) man and/or one (1) man crews depending on the nature of the work and safety demands.

Fair Labor Standards Act (FLSA) Status

The Fair Labor Standards Act (FLSA) is a federal law which requires that most employees in the United States be paid at the least the federal minimum wage for all hours worked, and overtime pay at time and one-half the regular rate of pay for all hours worked over 40 hours in a workweek.

Exemptions

The FLSA provides an exception from both minimum wage and overtime pay for certain classifications of employees (i.e., Executive Administrative, and Professional, etc.) In order for an exemption to apply, an employee's specific job duties, salary and education must meet all the requirements set forth by the Department of Labor Wage and Hour Division.

The Appointing Authority shall determine whether an employee qualifies for exempt status and the type of exemption (i.e. Executive, Professional, Administrative, etc.). The District considers all employees non-exempt, unless the Appointing Authority determines all requirements for exempt status are met.

Documenting Work Hours

All employees, FLSA non-exempt must document their hours worked with start and end times for purposes of public accountability. Employees shall keep accurate time records and may not make entries on time records for fellow employees. Recording of hours for FLSA exempt employees shall not destroy their exempt status.

Complaint Procedure

Employees that believe they have been improperly classified under the FLSA and/or that the District has made improper deductions from their salary must submit a written complaint to their Appointing Authority, the Appointing Authority shall investigate the complaint and provide the employee with a written response. The employee shall be reimbursed for any improper deduction.

Overtime

Overtime is payment for time worked in excess of 40 hours during a work week and is compensated at one and one-half times the employee's rate of pay for those employees eligible for overtime. Only actual hours of work qualify for overtime payment.

Partial rounding to nearest $\frac{1}{4}$ quarter approved as per union contract.

Employees may not work overtime without prior approval of the Supervisor or President. While payment of overtime will be made, failure to obtain prior approval may result in disciplinary action.

Only employees who are nonexempt i.e., not Executive, Administrative, or Professional employees under the Fair Labor Standards Act (FLSA), are eligible for overtime pay.

Compensatory Time

Compensatory time (comp time) is paid time off work for time worked in excess of 40 hours during a work week. The District gives comp time to employees in lieu of overtime pay. Employees earn comp time in the same manner and at the same rate as overtime pay.

Employees may not earn comp time without prior approval of the Supervisor or President. While comp time will be credited to the employee, failure to obtain prior approval may result in disciplinary action.

FLSA nonexempt employees receive one and one-half hour of paid leave time and can accumulate up to 240 hours of comp time.

Administrative and Professional FLSA exempt employees earn comp time at one hour per hour worked in excess of the regular work schedule. Administrative and Professional FLSA exempt employees may earn up to 120 hours of comp time.

Executive FLSA exempt employees do not earn comp time.

Compensatory time accrual for qualifying exempt employees can only be accrued on a 3 hour minimum per day. There will be no accrual for time less than 3 hours per day for exempt employees. Compensatory time over 80 hours must be cashed out on an annual basis.

Once the maximum number of hours is reached, the accrual of comp time ceases until a portion of the time is used.

Employees must complete a Request for Leave form when requesting to use comp time. Such request must have prior approval from the immediate Supervisor, and/or

President. Use of comp time is charged in minimum units of one-quarter hours (.25 hours).

The Employer can require that an employee use his/her comp time and can require that the comp time be used at a time that minimizes disruption of the workplace.

Administrative and Professional FLSA exempt employees will receive cash payment for accrued compensatory time at separation or retirement.

Pay Periods

For payroll purposes, pay periods begin on Sunday and end the Saturday of the following week. Payment for hours worked during a pay period is made bi-weekly on the second Friday following the completion of the pay period.

Payment is made through direct deposit (electronic transfer) for all new hires employed after September 1, 1991. Any checking or savings account information supplied for payroll purposes will remain confidential.

Pay advances of any kind are not permitted.

Federal, state, and municipal laws require automatic deductions of appropriate taxes and other deductions from employee's wages including OPERS. Employees hired after April 1, 1986, must also pay the Medicare tax of 1.45% of gross salary.

Employees may elect voluntary payroll deductions offered by employer (i.e., insurance, deferred compensation and United Way).

Employees must review the information on their pay stubs to ensure accurate payment, deductions, and balances and immediately report any inaccuracies to their payroll officer. The name printed on the pay stub must reflect the name on the employee's social security card.

Employees must notify their Supervisors and payroll officer of any change in address, bank account, marital status, or any other information that may affect payroll. Any changes to bank account information must be reported to the payroll officer a full week before the pay date. In the case of a holiday falling in the payroll week, changes need to be submitted by noon on Tuesday the week before the pay date. When bank account changes are made, the first payment on the new account may be by check.

Payment of Sick Leave Upon Retirement or Death

Upon an OPERS retirement from active service, employees with 10 or more years of service with the District (including the Wood County Sanitary Engineer's office service) shall be paid in cash for one-fourth (1/4) of the value of his accrued but unused sick leave credit up to a maximum of one hundred and twenty (120) days.

Payment of sick leave of this basis shall be considered to eliminate all sick leave accrued at that time.

In the event of a death of an Employee due to injuries on the job, said estate shall be paid his/her full accrued sick leave.

"Retirement" means disability or service retirement under OPERS.

The sick leave payment is based on the employee's rate of pay at the time of retirement.

Time Clock

Each individual employee shall punch in and out their own time card except on call outs. Disciplinary action may be taken against anyone punching in or out someone else's time card, unless approved by the employer. On call-outs, handwritten times will suffice. Employees will be dressed and ready to work when "punching-in" in their appropriate work clothes (uniform).

Employees shall not clock in early.

Time Sheets

Time worked shall be listed on the time sheets immediately after each workday is completed. Time sheets shall be turned in promptly for the preceding two weeks work. All approved request forms for time off, approved overtime, and out of classification forms must accompany the time sheets at that time. If there is no supporting documentation attached, the employee will not be paid for that time-off.

Work Schedules

Work schedules shall be followed as directed by the supervisor. Trading of duty schedules shall be allowed only with approval of the supervisor after written notification of mutual agreement by the employees involved. In a documented emergency, employees shall notify supervision as soon as possible.

Working out of Classification

An employee shall not be paid a higher wage rate for working out of classification unless this is definitely determined before starting the work, whether in writing or verbally by the management. The superintendent, assistant superintendent or the employee shall complete the appropriate form. See Article #20 of the bargaining agreement for more information. Management must be notified in writing in order to approve working out of classification.

ABSENCES FROM WORK

The District offers several types of leave for employees; however, employees may only use leave as prescribed in this handbook. Other sections of this handbook offer additional information on absences from work (i.e., vacation, comp time, etc.). Sick leave, vacation leave, compensatory time and personal leave is not available for use until it appears on the employee's earnings statement and the compensation described in the earnings statement is available to the employee.

Sick Leave

All District employees (full time, part time, and intermittent) earn sick leave at the rate of 4.6 hours for each 80 hours worked or .0575 per hour. When calculating sick leave accrual, "time worked" is defined as "all hours in an active pay status including, hours actually worked and all paid time on vacation, sick leave, compensatory time, and holidays." Sick leave is not earned during periods of unpaid leave of absence or layoff.

Reasons for Leave

Sick leave benefits may accrue to employees without limit and may be used, with approval of the Supervisor or President, for any of the following reasons:

1. Illness, injury, or pregnancy-related condition of the employee.
2. Exposure of an employee to a contagious disease which could be communicated to and jeopardize the health of other employees
3. Examination of the employee, including medical, psychological, dental, or optical examination, by an appropriate licensed practitioner.
4. A two (2) day sick leave will be allowed to attend the funeral of any other relative not considered as immediate family.
5. Illness, injury, or pregnancy-related condition of a member of the employee's immediate family where the employee's presence is reasonably necessary for the health and welfare of the employee or affected family member.
6. Examination, including medical, psychological, dental, or optical examination, of a member of the employee's immediate family by an appropriate licensed practitioner where the employee's presence is reasonably necessary.
7. Postnatal care of the employee's spouse or newborn child not to exceed five days. Additional time may be granted with doctor's certification for medical related conditions.

As used above, immediate family means an employee's spouse or significant other ("significant other" as used in this definition means one who stands in place of a spouse and who resides with the employee), parents, children, grandparents, siblings, grandchildren, brother-in-law, sister-in-law, daughter-in-law, son-in-law, mother-in-law, father-in-law, step-parents, step-children, step-siblings, or a legal guardian or other person who stands in the place of a parent (in loco parentis).

Use of Sick Leave

The use of sick leave requires approval from the Immediate Supervisor, Department Head or President. To justify the use of sick leave, employees must provide their employer with the specific nature of the illness/injury, the name and relationship to the employee of the injured or ill person, and the length of leave requested.

Sick leave is charged in minimum units of one-quarter hours (.25 hours). When requesting to use sick leave, employees must complete a Request for Leave form. The form must document the specific nature of the illness and immediate family member in order for the employer to justify the use of the leave.

Sick leave earned during a pay period cannot be used until after the Saturday that finishes that same pay period and on the books the previous pay period.

An employee on-call and calling in sick will be required to have District equipment returned or make arrangements for pick-up of the equipment before start of the work day and transfer duty responsibilities to another approved duty man or supervisor.

Leave Requests

Employees with prior knowledge of the need for sick leave time, e.g., scheduled surgery or doctor appointment, must complete a Request for Leave form prior to commencement of such leave and must receive approval from the immediate Supervisor. In cases of an illness or injury consisting of three or more work days, a physician's statement specifying the employee's inability to work and the approximate date of return to work shall be submitted to the immediate Supervisor.

Employees who are sick and unable to report to work shall contact their immediate Supervisor by their normal reporting time. If said employee has no sick leave time available, the employee will not automatically roll into compensatory or vacation time. The employee without sick leave time will be absent without leave and not paid for that time missed. Any abuse of this will be reviewed and discipline may occur. Upon return to work, employees must complete a Request for Leave form.

Employees may use sick leave benefits only for the purpose outlined above. The District can require medical verification and/or take disciplinary action if chronic use of sick leave, excessive use of sick leave, or abuse of sick leave is suspected. (Examples would be patterned abuse of sick leave, consistent one

day sick leave usage, limited amount of sick leave on books without prior medical verification).

The misuse of sick leave may result in a denial of pay and employee disciplinary action, including dismissal. An employee who fails to comply with this chapter and sections 124.38 and 124.382 of the Revised Code shall not be allowed to use sick leave for time absent from work under such non-compliance. Application for use of sick leave with the intent to defraud shall be grounds for disciplinary action which may include dismissal. Falsification of either a written, signed statement or a physician's certificate shall be grounds for disciplinary action, including dismissal.

Employees who have worked for the District at least one year, and at least 1,250 hours during the preceding 12 month period, are eligible for family and medical leave. However, only certain types of leave are covered. If the leave qualifies under FMLA, the leave will count toward the employee's FMLA entitlement. For more information please refer to the District's Family Medical Leave Act Policy.

Employees unable to work after all sick leave rights have been exhausted may request a leave of absence from the President. Employees may, upon return to health, return to active pay status at the same or similar position upon examination and certification by a physician stating that the employee is able to perform the duties of the position. The District reserves the right to send the employee to a physician of the District's choice and at the District's expense to verify the employee's inability to return to work.

Transfers and Reinstatement of Sick Leave

An employee who transfers from employment with or has prior service with any political subdivision of the State of Ohio, or who is reinstated or re-employed, within 10 years shall be credited with the unused sick leave balance, upon written verification from the previous employer. It is the employee's responsibility to obtain verification. Employees who received a sick leave payment upon retirement shall not receive credit for any previous balance.

Sick Leave Donation Policy

The District offers a Sick Leave Donation policy for those employees in need. With the help of other employees, it is possible for individuals to benefit from the generosity of their fellow workers to help overcome the financial impact of serious health or injury related issues. The Sick Leave Donation Program allows employees to voluntarily provide assistance to co-workers who are in need of leave due to serious illness or injury of the employee.

Donors

1. Participation will be voluntary and open to all employees.
2. Employees will only be able to donate hours that do not reduce their remaining sick leave below 240 hours.
3. Maximum hours that can be donated are 40 hours per W-2 payroll year.
4. Leave can be donated only in 8 hour increments.
5. Unused donated sick time will be put into a pool for future approved donation requests.
6. Donation does not count as hours used for any “sick bonus paid days” calculation.
7. Obtain approval for a sick leave donation by completing a donor form.

Recipients

1. Coverage limited to major illness/injury.
2. Must be away from work for at least 4 consecutive weeks.
3. Employees may use only 1 (one) donation period per W-2 payroll year.
4. Requires doctor’s statement substantiating employee is unable to work for a qualifying length of time.
5. Leave donated to recipient in 160 hour maximum amount for a donation period.
6. Donated sick hours will be paid at the recipient’s hourly rate.
7. Each donation period requires a doctor’s substantiation.
8. Donated sick hours are not eligible for severance if person resigns, retire or pass away before all are utilized.
9. Employees on Workers Compensation or any other disability program are not eligible for donation program.
10. Employee must have completed probationary period.
11. Employee can have no sick, vacation or compensatory time available for

use.

12. Sick and vacation time accrued by an employee while using donated leave must be used in the following pay period before additional donated leave may be used.
13. Unused donated sick leave hours will be put into a sick pool bank and be utilized first for any future donated sick leave request from any employee.
14. Obtain approval for a sick leave donation by completing a recipient form.

Requests can be submitted up to 30 days before donation is needed.

Family and Medical Leave

Family Medical Leave Act of 1993
NWSD-95-101 dated August 10, 1995;
NWSD-2010-90 dated July 22, 2010
NWSD-2014-144 dated December 18, 2014

The Family and Medical Leave Act (FMLA) grants an eligible employee continuous or intermittent leave during a calendar year, January 1 through December 31, for certain qualifying events. Basic and Military Qualifying Exigency Leave provide up to a total of 12 weeks of leave (480 hours) during a single 12 month period. Military Caregiver Leave provides up to a total of 26 work weeks (1,040 hours) of leave during a 12 month period. No employee receives more than a total of 26 weeks in a calendar year.

The Family and Medical Leave Act guarantees that an employee who takes FMLA leave can return to either the position held before the leave or a similar position upon return from leave, unless the employee would have been terminated in the absence of FMLA leave due to layoff, job abolishment, or insufficient funds. FMLA also guarantees the same benefits or conditions of employment accrued prior to the beginning of the leave period.

All available leave and benefits (e.g., sick, vacation, personal leave, comp time, Workers' Compensation, etc.) run concurrently with designated FMLA leave and must be exhausted prior to commencement of an unpaid FMLA leave. Employee sick leave benefits provided by the Ohio Revised Code generally meet or exceed benefits provided under FMLA.

Three Types of FMLA Leave

Basic FMLA Leave

1. Incapacity due to pregnancy, prenatal medical care, or child birth, beyond the 5 days for bonding if a medical issue exists with the mother or child.
2. Caring for the employee's child after birth or placement for adoption or foster care. FMLA leave must be completed within 12 months of the date of birth/placement. (An employee cannot take 12 weeks parental leave and an additional 12 weeks of other FMLA leave.)
3. Caring for the employee's spouse, son or daughter, or parent, who has a serious health condition; or
4. An employee's serious health condition that makes the employee unable to perform the duties of his/her position

Military Qualifying Exigency Leave

Eligible employees with a spouse, son, daughter, or parent on active duty or called to active duty status in the National Guard or Reserves in support of a contingency operation may use up to 12 weeks leave for certain qualifying exigencies.

Military Caregiver Leave

An eligible employee who is the spouse, son, daughter, parent, or next of kin of a covered service member shall be entitled to a total of 26 work weeks of leave during a 12-month period to care for a covered service member. During the single 12-month period, an eligible employee shall be entitled to a combined total of 26 work weeks of leave under Qualifying Exigency Leave and Military Caregiver Leave entitlements.

Employee Eligibility

Employees are eligible if they meet both of the following criteria:

1. Employed by the District for at least 12 months or 52 weeks; and
2. Worked at least 1,250 hours, including overtime but excluding paid vacation leave, paid sick leave, paid holidays, unpaid leave and layoffs, during the past 12 months.

Requests for FMLA Leave

If the need for leave is foreseeable (e.g., scheduled surgery, birth), employees must communicate sufficient information about the reason for leave to the Supervisor by completing a written Request for Leave at least 30 days prior to taking leave.

If the need for FMLA leave is unforeseeable (e.g., car accident), employees must comply with the normal call-in procedure and communicate sufficient information about the reason for leave. A written Request for Leave must be submitted as soon as practicable.

The decision to designate leave as FMLA-qualifying must be based only on information received from the employee or the employee's spokesperson (e.g. if the employee is incapacitated, the employee's spouse, adult child, parent, doctor, etc. may provide notice to the employer of the need to take FMLA leave). If the Supervisor does not have sufficient information, the Supervisor should inquire further of the employee or the spokesperson to ascertain whether the leave is potentially FMLA-qualifying.

When determining paid FMLA leave, employees shall refer to the Employee Handbook to verify if the payment for leave requested (e.g., sick, vacation, etc.) meets the statutory definition. For example, adoption and qualifying exigency do not meet the statutory or handbook purposes for sick leave use. Vacation or other types of leave may be used.

Even if not specifically requested as FMLA leave by the employee, the supervisor shall initiate the FMLA process for any qualifying health condition or event.

First Notice: Eligibility

The Supervisor must notify employees, in person or by mail, of their eligibility status within five business days after:

1. the first time an employee requests leave for a particular qualifying reason in the calendar year; or
2. the Supervisor receives knowledge that the reason for an employee's leave may be FMLA qualifying.

This notice only indicates employee eligibility, not whether the facts qualify for FMLA. See form: FMLA First Notice: Notice of Eligibility and Rights & Responsibilities.

Certification

The Department Head or Supervisor may require employees to submit a complete and sufficient certification on one of the following forms as appropriate for the request:

1. Certification of Health Care Provider for Employee's Serious Health Condition
2. Certification of Health Care Provider for Family Member's Serious Health Condition
3. Certification of Qualifying Exigency for Military Family Leave
4. Certification for Serious Injury or Illness of Covered Service Member for Military Family Leave
5. Equivalent documentation in the case of an adoption/foster care.

The employee must return the completed certification within the timeframe noted on the Notice of Eligibility and Rights and Responsibilities form, or the leave may be denied and the employee may be subject to disciplinary action (e.g. insubordination).

Where the employee's need for leave due to the employee's own serious health condition, or the serious health condition of the employee's covered family member lasts beyond a single leave year, the District may require the employee to provide a new medical certification in each subsequent leave year.

Second and Third Certification Opinions

The District may require that the employee get a second opinion from an independent medical provider, selected and paid for by the District. If the two opinions conflict, the conflict may be resolved by a third opinion by a provider agreed to by the District and the employee which shall be considered final and binding. The District will pay for this opinion.

The District may not require a second and third opinion for:

1. Employer's request for recertification. See below.
2. Leave taken because of a Military Qualifying Exigency.
3. Leave taken to care for a Covered Military Service Member.

Recertification

The District may require recertification of an employee or family member's serious health condition at any time at the employee's expense if:

1. The employee requests an extension of leave (e.g. 2 weeks to 3 weeks);
2. Circumstances described by the previous certification have changed significantly (e.g. the duration of the illness, the nature of the illness, complications); or
3. Leave taken by the employee is inconsistent with the circumstances described in the employee's certification (e.g. facts about employee's activities during the leave suggest FMLA qualifying serious health condition no longer exists).

If the medical certification indicates that the minimum duration of the condition is more than 30 days, the District must wait the minimum duration before requesting a recertification.

In all cases, the District may request a recertification of a medical condition every six months in connection with an absence by the employee (e.g. course of treatment/intermittent FMLA extending more than six months).

Second Notice: FMLA Designation

One notice of designation is required for each FMLA-qualifying reason per calendar year (e.g. separate notices of designation for broken leg in March and heart attack in November.)

Within five business days after the Department Head or Supervisor receives enough information to determine whether the leave taken is for a FMLA-qualifying reason (e.g. after receipt of a complete and sufficient certification), the Department Head or Supervisor must provide notice to the employee, in person or by mail, if the leave requested is or is not a FMLA-qualified leave. See form: FMLA Second Notice: Designation Notice.

This notice must include the amount of leave counted against the employee's FMLA entitlement. If the amount of leave needed is not known, then the Department Head or Supervisor must provide notice of the amount of leave counted against the employee's FMLA leave entitlement upon the request of the employee, but no more often than once in a 30-day period and only if leave was taken that period.

Use of FMLA Leave

Intermittent Leave

In certain cases, FMLA leave may be taken on an intermittent basis rather than all at once, or the employee may request to work a part-time schedule. In reviewing an employee's request for intermittent leave, the Elected Official or Department Head shall determine whether or not an acceptable leave schedule can be arranged and may consider a temporary transfer to an alternative or comparable position.

If medically possible, an employee must schedule intermittent leave so as to not unduly interrupt employer operations. For employees taking intermittent leave, the employer must account for the reduced schedule using increments of time as outlined in the Employee Handbook, as required by a collective bargaining agreement or as set by an appointing authority.

Holidays

Holidays that occur during a full week of FMLA leave are considered FMLA leave. However, if an employee is using FMLA leave in increments of less than one week, the holiday will not count as FMLA leave unless the employee was otherwise scheduled and is expected to work during the holiday.

Coordination of Leave for Spouses Working for the District

A husband and wife who both work for the District and are eligible for FMLA leave are limited to a combined 12 work weeks of leave for birth, adoption, or foster care placement. Other FMLA taken will be calculated in the same manner as leave for an individual employee.

Interaction with Other Leave Programs

Additional time off beyond the required FMLA leave may be available to employees as defined in the Employee Handbook (e.g. sick leave and/or leave of absence without pay).

Reporting Requirements

Employees on FMLA leave are required to report to their immediate supervisor on their status and intent to return as noted on the FMLA First Notice: Notice of Eligibility and Rights & Responsibilities.

Recordkeeping

Records and documents relating to certifications or medical histories created for purposes of FMLA shall be maintained as confidential medical records in separate files from the usual personnel files.

All records relating to FMLA shall be maintained for a minimum of three years.

Department Heads or their designees shall maintain records of leave balances and FMLA leave usage.

Employee Benefits

Health Benefits

During the FMLA leave, paid or unpaid, the District will maintain the employee's coverage for health insurance benefits as defined in the Plan Document.

Employee Payment of Health Benefit Co-pays

If the employee is on FMLA leave and receives wages for both monthly pay periods, the District will deduct his/her portion of the premium(s) normally deducted from the individual's pay check.

If both pay periods do not provide sufficient funds to withdraw the employee's portion of the premium(s) normally deducted via payroll, the employee must pay the entire monthly premium.

Employee paid insurance copayments are due by the last day of the month prior to coverage—i.e. February's payment is due by January 31st. Checks should be made payable to the Wood County Treasurer and submitted to the department's insurance group representative.

Insurance Termination Notice

Wood County must give 15 days' notice before terminating coverage due to non-payment of premium.

If payment is not received after a 30-day grace period, benefits will terminate retroactively to the first day of the month for which payment of premium due was not received. Forms to terminate coverage must be completed by the employee or the employee's group representative.

All claims paid on a retroactively terminated policy will become the responsibility of the employee.

An employee whose benefits are terminated will no longer be eligible to re-enter the plan during leave.

Vacation and Sick Leave Benefits

An employee does not accrue sick leave or vacation leave benefits during a leave without pay under FMLA.

Reinstatement After FMLA Leave

Employees who take leave due to their own serious health condition must provide a fitness for duty certification from a health care provider that they are able to perform the essential functions of their position prior to returning to work.

Employees electing not to continue health benefits during FMLA leave will have their health benefits reinstated on the first day of the month after return to permanent full time employment. Benefits will be reinstated at the same level in which they were in effect prior to leave. In order to be considered as returning to work, an employee must work for at least 30 calendar days.

All other terms and conditions of employment will be reinstated upon the employee's return to work (e.g., sick leave accruals, health benefits, etc.)

Unavailability of Position

If the same job is not available, the Appointing Authority will determine in which similar position the employee should be placed, and must grant equivalent pay, benefits and conditions of employment.

An employee who returns to permanent full-time work for at least 30 consecutive calendar days is considered to have returned to work.

Non-Returning Employees

Employees who fail to return to work after the FMLA leave without other approved leave are deemed to have voluntarily terminated their employment. Any balances of pay due (vacation, compensatory time, etc.) will be paid on the next pay date after termination.

The employee's insurance benefits, if continued, cease at the end of the month following notification. The District will notify employees of their COBRA options upon receipt of termination information from the department's monthly insurance report. The employee must complete a COBRA Personnel Action Report and submit it to his/her group representative in order to initiate COBRA benefits.

The employee must pay the District's share of health insurance premiums paid on the employee's behalf during a period of unpaid FMLA leave if the employee fails to return to work after the employee's FMLA leave ends. The employee does not owe the District's share of the premium if the employee fails to return to work due to some other circumstances beyond the employee's control.

It is the intent of the District to follow the requirements of the Ohio Revised Code where applicable.

2. The request shall state the reason for taking leave of absence, first day of leave, and return to work date. A copy of the order or notification to report must be attached. The order or statement from the appropriate military command shall specify, by name, that the employee is to report for duty.
3. Emergency requests will be considered if the need arises.
4. Employees absent without proper authorization will be charged with an unauthorized absence and will be subject to disciplinary action.
5. Military leave cannot be denied for failure to properly notify the employer, but may be grounds for disciplinary action.

C. Induction

1. Employees shall be granted a leave of absence to receive their physical examination or otherwise be inducted into the military.
2. Employees shall be granted up to three work days of sick leave, vacation leave, or other applicable time (or a leave of absence without pay, if necessary) per calendar year for physical examination and induction purposes.

Full-time employees whose schedules are other than Monday through Friday are entitled to holiday pay for holidays observed on their day off.

Employees must be on active pay status the day before a holiday in order to receive holiday pay. If a holiday falls during an employee’s scheduled vacation or period of paid absence due to illness or injury (sick leave), the employee will not be charged for vacation or sick leave for that day but will receive holiday pay. Payment will not be made for holidays which occur during an unpaid leave of absence.

A part-time employee may be eligible for holiday pay if the employee is normally scheduled to work on the holiday day. For example, if an employee is normally scheduled to work on Monday, the employee will be paid the number of scheduled hours for the Columbus Day holiday which fall on Monday each year.

Vacations

All full-time employees are entitled to vacation leave, with pay, after the completion of one full year of service with the District or any other political subdivision of the state. One year of service shall be computed on the basis of twenty-six biweekly pay periods.

Vacation is based on length of service as illustrated in the Vacation Accrual Table below:

Vacation Accrual Table			
<u>Years of Service</u>	<u>Pay Periods</u>	<u>Annual Accrual</u>	<u>Balance Limit</u>
Less than one year	1-26	No vacation	
After one year	27-208	80 hours (2 weeks)	160 hours
After 8 years	209 - 390	120 hours (3 weeks)	240 hours
After 15 years	391- 650	160 hours (4 weeks)	320 hours
After 25 years	650 +	200 hours (5 weeks)	400 hours

Employees may not accrue vacation beyond the balance limit in the Vacation Accrual Table.

Vacations shall be taken, as mutually scheduled with the employer, with 24 hours' notice (if eight hours or less are used). Vacation time shall be taken in 15 minute increments. The same number of days of notice is required for the number of days requested off. For example, if request is for 5 days off, five days of notice is required. Documented emergencies will be dealt with on a case-by-case basis.

Seniority utilization shall be observed for purposes of scheduling vacation time frames. No vacation will be granted for an employee who is performing duty-man responsibilities during his or her scheduled duty week. Documented emergencies will be dealt with on a case-by-case basis.

At no time will more than half of the maintenance department=s staff be allowed to be off at the same time. This is especially important during holidays where the number of crew members is reduced.

The Customer Service area shall always be staffed with at least one billing technician at all times.

Employees must take vacation leave during the year in which it accrues and prior to the next recurrence of the anniversary date of the employee's employment, provided the Board of Trustees may, in special meritorious cases, permit employees to accumulate and carry over vacation leave to the following year. However, in no case may vacation leave be carried over for more than three years. Each employee must check with their Supervisor as to their vacation carry over policy.

Employees must complete a Request for Leave form when requesting to use vacation time. Such request must have prior approval from the immediate Supervisor. Vacation is charged in minimum units of one-quarter hours (.25 hours).

Employees are entitled to compensation for accumulated but unused vacation leave only at the time of separation of service. Payment for accumulated but unused vacation leave at separation is at the employee's current rate of pay. Employees who leave employment prior to the completion of their first year are not entitled to receive compensation for accrued vacation hours.

Except as otherwise provided in this section, a person employed, by the State or any political subdivision of the State, earning vacation credits currently, is entitled to have prior service with any of these employers counted as service with the state or any political subdivision of the State, for purposes of computing the rate of vacation accrual. The employee must provide written proof of prior service calculated on compensated pay periods within 30 days of employment. Upon receipt of prior service verification, The District will confirm the rate of vacation accrual. Any employee who

retired after June 24, 1987, and took part in any retirement plan offered by the state (i.e., OPERS, STRS, etc.), shall NOT have his/her prior service counted in the event he or she is re-employed by the District or other public employer.

Upon the death of an employee, payment of accumulated unused vacation leave shall be disbursed in accordance with ORC 2113.04 or to the estate of the employee.

Vacation Leave Buyout Option for Non-Bargaining Unit Employees

A non-bargaining unit employee, who meets the following criteria at the time of application, may apply to convert to cash up to 20 days per year. To be eligible for the cash conversion, the employee must have:

1. A sick leave balance of at least 120 hours at the time of application,
2. A vacation leave balance of at least 40 hours after the conversion.

An eligible employee may exercise the vacation leave conversion option up to four (4) times per year, for payment in March, June, September or December, however, conversion is limited to a maximum of 20 days each calendar year.

An employee wishing to convert accumulated vacation time to cash at February 15, May 15, August 15 or November 15 must complete and sign a Vacation Leave Conversion Form and submit the form to the President for consideration and approval. The form must be submitted by February 15, May 15, August 15 or November 15 for payment in the following month.

of approved vacation leave buyout is taxable income, and is subject to all tax and other withholding.

Annually, the President will review the budget and financial condition of the District, and will determine whether to continue or suspend the buyout option at any time.

Resolution 2009-132, August 20, 2009

This buyout option is subject to the current requirements of the Ohio Public Employees Retirement System.

Ohio Public Employees Retirement System

ORC 145

Information regarding the Windfall and Offset provisions are available from the Social Security Administration, www.socialsecurity.gov or toll-free at 1-800-722-1213.

Traditional Pension Plan: A defined benefit plan – retirement benefit is determined by a formula (based on years of service and highest years of salary).

Member Directed Plan: A defined contribution plan – retirement benefit is determined by employee and employer contributions and gains/losses of investment options.

Combined Plan: A defined benefit and defined contribution plan – retirement benefit is determined by reduced formula (for defined benefit component) and gains/losses or investment options (for defined contribution plan).

OPERS is funded by employee and employer contributions. The employee contribution is made through payroll deduction based on gross earnings. Contact your payroll officer for current deduction rates.

OPERS sends all employees an enrollment card and informational brochure to explain their benefits. Annual statements and publications are mailed by OPERS directly to members.

Appointing Authorities must comply with reporting requirements, policies and procedures, etc. as communicated by the Commissioners.

Upon, hire, all employees shall receive information relative to the Plan which includes the Plan Document (Subscriber Booklet) or Summary Plan Description (SPD) eligibility guide, and related information. Employee acknowledgement of receipt is required.

All full-time permanent employees are eligible for enrollment in the Wood County Employees Health Benefits program. Coverage includes medical, prescription, vision services plan, dental, and life insurance. To enroll, employees and spouses (if applicable) must complete and application for the type and level of coverage requested and complete a confidential wellness screening within the enrollment period.

Employees seeking to change their insurance coverage must make application within 30 days or as outlined in the Plan Document. The annual Open Election period is November 15 through December 15 with changes effective on January 1 of the following year.

The County also provides a variety of wellness programs to eligible employees. Refer to the Summary Plan Description for a complete listing of available programs.

In the event of termination of benefits, the employee's insurance coverage will cease the end of the month in which an employee leaves active pay status.

Under Public Law 99-272 Title X, commonly referred to as COBRA, separating employees may be eligible to continue coverage at their own expense. Employees are notified of their COBRA rights upon enrollment in the health benefits program. When coverage terminates, employees must complete a COBRA personnel action report to determine COBRA eligibility. Written communication regarding COBRA offerings shall be mailed to the affected employee and/or spouse and dependents.

Protected Health Information (PHI) is deemed confidential by the Plan. Questions may be directed to the HR and Benefits Manager in the Commissioner's Office who serves as the Plan's Privacy Officer.

Employees should refer to the Plan Document for additional information, or visit the employee website at www.co.wood.oh.us/employee.

Optional Insurance Program

Other optional insurance programs are offered to employees, but the entire premium is paid by the employee. Group rates are provided. Contact your department's insurance representative or payroll officer for more information.

Representatives make annual visits to the District office to advise new employees of program options and update active accounts.

Employees who separate from District employment should notify the appropriate insurance representative of their employment status.

Employee Assistance Program

Personal problems may affect not only an individual's health, family and job security, but also co-workers and job performance. Therefore, the Employee Assistance Program has been developed to assist employees with such problems.

The Wood County Employee Assistance Program (EAP) offers confidential assistance to Wood County and District employees and their families through four types of referrals: self, family member, supervisory and peer.

This no cost program can be accessed by calling the 24-hour EAP Crisis Intervention Hot-Line at 1.800.513.6733.

Workers' Compensation

ORC Chapter 4123

NWSD: 2010-95 dated July 22, 2010

NWSD: 2014-144 dated December 18, 2014

District employees are covered by the Ohio Workers' Compensation plan administered by the Bureau of Workers' Compensation (BWC). All claims are medically managed by a Managed Care Organization (MCO). The following is a list of benefits provided to employees who experience work-related injuries.

- A. Payment of medical care including prescriptions, (at the level provided by law) provided by a clinic, physician, hospital or medical services, for the work-related injury or condition as approved by the District, BWC, Industrial Commission of Ohio, or MCO.
- B. Payment of compensation (at the level prescribed by law) for disability after seven or more calendar days away from work.
- C. Death benefits payable to the beneficiaries of any employee whose death is a direct result of a work-related accident or illness.

Employee Responsibilities

Employees who are involved in a workplace accident/injury or who witness a workplace accident/injury must report the incident to their Supervisor promptly, but no later than the end of the employee's work shift. An Accident Injury Investigation Report must be completed by the injured worker even if a Worker's Compensation claim is not filed.

Employees shall complete all pertinent Workers' Compensation and/or accident report forms and submit to their Supervisor. A delay in providing required information may result in a delay of processing the claim and disciplinary action. All claims for Workers' Compensation benefits must be filed within two years of the date of injury.

If medical attention is required, employees should seek professional care from the District's approved occupational medicine facility or a BWC participating provider. (A non-certified provider will be reimbursed only in an emergency or for initial treatment.) Employees must submit a proof of purchase to the District to receive reimbursement for prescription drugs to treat a work-related injury or illness. Some prescriptions may require prior authorization. Submission for payment of medical bills associated with a Workers' Compensation claim is the responsibility of the injured worker.

Employees must notify all service providers of the employer billing instructions and claim number when assigned.

Immediately following treatment, employees must provide written documentation from the treating physician including the employee's name, dates of leave, return to work

date and any physical restrictions to their Supervisor. If the employee needs additional injury-related leave, the employee must submit medical documentation from the treating physician to substantiate the additional leave upon receipt or prior to the expiration date of the previously approved return to work date, whichever is earlier.

Supervisor Responsibilities

Supervisors must immediately notify the Supervisor of all employee workplace accidents/injuries. The employee Accident Injury Investigation Report and all other relevant records received by the Supervisor must be forwarded within 24 hours of receipt.

The Supervisor shall thoroughly investigate the accident/injury, take corrective action, and document the removal of any dangerous condition in the workplace.

Claim Procedures

The District shall submit the claim to the BWC. The BWC will assign a claim number and forward notification to the employee's home address. The assignment of a claim number by the BWC is only an acknowledgement of the claim.

Providers shall bill the District for services unless directed to bill the MCO. Medical bills are paid using the usual, customary and reasonable fee for each type of service.

Alcohol/Drug Related Injuries

All District workplaces shall post written notice to employees that the results or a refusal to a chemical test for alcohol and/or drugs as described in ORC 4123.54 may affect the employee's eligibility for compensation and benefits under Ohio's Worker Compensation Law Chapter 4123 of the Revised Code.

The employee must submit to an alcohol and/or drug test if the employer has a reasonable cause to suspect use or if the test is requested by a police officer or licensed physician.

An employee who test positive or refuses to submit to chemical testing may be disqualified for compensation and benefits under the Workers' Compensation Act.

Positive alcohol and/or drug testing, or an employee's refusal to test under the circumstances outlined in ORC 4123.54, creates a rebuttable presumption that the proximate cause of the employee's injury was alcohol or a controlled substance not prescribed by the employee's physician. The employee may dispute or prove the presumption untrue by producing sufficient evidence to the BWC.

Coordination with Other Policies

All other District policies and procedures apply when an employee is involved in a Workers' Compensation claim.

Insurance Benefits: Insurance benefits for injured workers will continue for up to 60 days after the last day the employee was actively at work. The employee must pay any co-payments required by the plan.

FMLA: Employees on a Workers' Compensation claim may qualify for benefits under the Family Medical Leave Act (FMLA). Workers' Compensation and FMLA benefits commence on the same date.

Transitional Duty: The District seeks to return all injured workers to their original position immediately after a work related injury. Some injured employees may return to gainful employment in a temporary "bridge" assignment within the limitations of the injury. See the Transitional Work Program Policy and Procedures for additional information.

Transitional Work Program Policy and Procedures

NWSD 98-124 8/27/98 REV:

NWSD 2010-91 dated July 22, 2010 REV.

- I. Purpose: It is in the employee's physical and psychological best interests to remain active and productive within the limitations of a work related injury or illness. The District's Transitional Work Program (TWP) returns an employee with a work-related injury or illness to active employment through a temporary employment ("bridge") assignment. The temporary work assignment accommodates the limitations of the injury until the employee can return to full duty without restrictions or reaches maximum medical improvement.
 - A. The benefits of the District's TWP are as follows:
 - 1. The Employee provides a valued service without the stress of losing income or regular work contacts.
 - 2. The District reduces Workers' Compensation related expenses by promoting positive work relationships and by maintaining an experienced work force.
 - 3. The participating Physician(s) work within the framework of a transitional work program to make an informed decision about the type of work an employee can best handle within his/her physical capabilities.
- II. Eligibility
 - A. All employees on leave from work due to a work-related injury or illness are eligible for participation in the program pending a medical evaluation. An employee may participate in the TWP program for three months, with one three month extension following a review by the TWP participating physician, the President, and/or the Board of Trustees.
 - B. Drug and/or alcohol tests will be performed upon reasonable suspicion that drug and/or alcohol use was the cause of, or contributed to the work-related injury or illness. Employees testing positive may not be eligible for the program.
- II. Procedures
 - A. After a work-related injury/illness, the employee shall notify his/her

supervisor who will immediately contact the President and the Finance Department to schedule an appointment with the designated Workers' Compensation Physician.

- B. If the employee is physically able to perform the responsibilities of his/her original classification with slight modification provided by the physician, he/she may be returned to that classification upon approval for accommodation by the Appointing Authority.
- C. If the employee is unable to return to his/her original classification, the physician will refer to the TWP manual to determine which bridge assignment within the District the employee can perform considering his/her injury. The physician will notify the Finance Department within 24 hours of the compatible assignments approved for the injured worker.
- D. In consultation with the appropriate official/supervisor, the President will assign the injured employee to a temporary work assignment (bridge assignment). If more than one (1) bridge assignment is necessary to accommodate the employee's needs, placement within the office/department where the injury occurred will be given priority. If a medically compatible assignment is not available within the employee's office/department, a temporary placement within another District office/department may be arranged. The assignment will be based upon:
 - 1. The availability of work.
 - 2. Physician approval.
 - 3. Estimated length of the employee's recovery period.
 - 4. The employee's physical needs/condition.
 - 5. Approval of the President and/or the Board of Trustees.
- E. If the injured worker seeks initial treatment from his/her own physician, the Finance Department will schedule an appointment for the injured worker with the District's designated Workers' Compensation Physician. In the event the two physicians reach different conclusions, the Finance Department will contact the physicians in an effort to determine the most appropriate action.
- F. Once a "bridge" assignment is approved by the physician and the

Board of Trustees, the Finance Department will notify the employee of the bridge assignment. Failure to accept the assignment or respond to the employer will be treated as a refusal to work and the District will seek to terminate any compensation being awarded by the BWC.

- G. The employee must sign and return the Transitional Work Agreement prior to performing any duties. The Transitional Work Agreement between the employee and his/her appointing authority will include the following elements:
 - 1. A specific start and stop date for the program. In no case will a contract be extended past six (6) months.
 - 2. Work schedule.
 - 3. Description of the “bridge” assignment work duties.
- H. The employee will begin work on the next scheduled working day unless otherwise instructed by the physician. The supervisor and the Finance Department will explain the Transitional Work Program policy and procedures and the duties of the assignment, including a written description, oral instructions, photographs, and, if necessary, video tapes.
- I. At the intervals set for each bridge assignment, the employee must see the District’s Workers’ Compensation Physician for reevaluation of assignments on the Bridge Assignment Matrix. The employee’s progress toward his/her original classification must meet the needs of the employee, the Board of Trustees, and temporary assignment availability.
- J. With each new assignment, the employee will meet with the Finance Department to review changing responsibilities and expectations. Any change of assignments, work hours, etc., must be noted on the Transitional Work Agreement and signed by the appropriate parties prior to duties being performed.
- K. Only the physician can approve a change in “bridge” assignment for the injured worker. Any changes in the employee’s medical status must be reported to his/her supervisor and the Finance Department.
- L. All records regarding the employee’s transitional work assignment(s) will be maintained by the Finance Department and incorporated into the employee’s personnel file.

- M. If at any time the Workers' Compensation Physician determines that an employee will never be able to return to his/her regular duties, an assessment of his/her employment status will be made after a complete review of the case and consideration of a formal vocational rehabilitation plan.

IV. Compensation

- A. Employees in the program receive their current rate of compensation and schedule of benefits from the District while recovering from their work-related injury/illness.

V. Benefits During Program

- A. Coordination of health insurance benefits will follow all regular Workers' Compensation procedures.
- B. The employee must take Family Medical Leave, if available.

Employee Recognition Program

The Employee Recognition Program is designed to recognize employees for their service to the District/Wood County Sanitary Engineer's office. Employees with 5, 10, 15, 20, 25, 30, and 35 years of District/Wood County Sanitary Engineer's office service are recognized during the program. The program is traditionally held at a Board of Trustees meeting held in January for service completed in the previous year.

- I. Purpose
 - A. This Public Records Policy is adopted by the Northwestern Water and Sewer District to ensure that Ohio's citizens are entitled to access the records of their government. This policy shall be interpreted liberally in favor of disclosure and exemptions shall be narrowly construed. and to advance that principle, is to be interpreted liberally in favor of disclosure.  - B. The Public Records Act imposes two primary obligations upon public offices and, hence, two corresponding rights upon the public:
 - 1. Prompt inspection of public records; and
 - 2. Copies of public records within a reasonable period of time
- II. Public Records
 - A. Under Ohio law, a public office may only create records that are "necessary for the adequate and proper documentation of the organization, function, policies, decisions, procedures and essential transactions of the agency and for the protection of the legal and financial rights of the state and persons directly affected by the agency's activities."

- D. Format of Request. The request may be oral or in writing based on the requester's choice. The office may seek a written request

of the requester's identity and intended use if the facts demonstrate it would enhance the ability to identify, locate, or deliver the public records sought by the requester but only after the office provides information to the requester on the following:

Purpose of Policy

Cellular phones ("cell phones") are provided as a tool in the conduct of District business. Employees assigned a cellular phone should be aware that they are subject to the Ohio Revised Code. Internet and Email (Internal/External) Use Policy and Procedures

NWSD 2008-18 1/10/08

Overview

This document provides uniform guidelines outlining acceptable use for the District's computer equipment and related information technology systems and devices. These guidelines apply to all employees who have access to the District's computers or related equipment.

The computers and related information systems are an integral part of the daily business operations and procedures at Northwestern Water & Sewer District. As such, their use is subject to the same expectations of personal responsibility and reasonable behavior that govern any other aspect of employment at the District. In general, employees should keep in mind four guiding principles that the acceptable use policy is intended to clarify and support:

- Computers and related systems are the property of the District and are intended to be used for the business purposes of the District.
- Employees using the District's computers and related information systems represent the District and, therefore, should ensure that their actions do not harm or damage the District's interests or image.
- Employees will seek to protect the District's information, including information regarding District customers, subject to the State of Ohio's "Sunshine Laws" and other public records requirements.
- The District reserves the right to review and monitor all computers and related systems. Users should have no expectation of privacy with respect to materials or information created, transmitted, or stored on these systems.

Subsequent sections of the document elaborate each of these four principles.

Computers and related systems are the property of the District and are intended to be used for the business purposes of the District.

1. Personal use of computers and related systems, including e-mail and internet, should be incidental and minimal.
2. As far as practical, employees should avoid using the District's email system for receiving personal correspondence.

3. Internet and email access should not be used for personal gain, for the advancement of personal views, or for solicitation of non-District business.
4. Use of the internet should not result in the disruption of the District's computer network, nor should it interfere with personal productivity at work. The District reserves the right to impose limitations on the use of streaming video or audio (e.g., internet radio) or any other activity that may adversely impact system integrity or personal productivity.
5. District management reserves the right to determine, in its sole discretion, whether personal usage of District computers and related systems is inappropriate.
6. Installing or executing software applications for purposes other than District business is generally prohibited. Minor items fitting the "incidental and minimal" standard for personal use (e.g., simple screen savers) are permissible. Games are prohibited.
7. Files should be downloaded from the Internet only when required to perform job duties. Downloading unapproved software or files increases the risk of system incompatibility and infection by computer viruses, which endangers the entire District network.
8. Adding or removing any hardware or attached devices from a PC without proper authorization is prohibited.
9. Company owned and provided software is a business resource intended to assist in conducting business. Any duplication of licensed software, except for backup or archival purposes, is a violation of federal copyright law. No District employee is permitted to make unauthorized copies of software.
10. District-purchased software will not be loaded onto employee-owned equipment unless that equipment is used for District business and the software license permits such use.
11. Only properly licensed software will be loaded onto District equipment. Copying and/or installing pirated software is prohibited.
12. All users of District equipment must comply with the copyright laws and provisions of the licensing agreements that apply to software, printed and electronic materials, graphics, multimedia

and all other technical resources licensed and/or purchased by the District or accessible over network resources provided by the District.

13. All software purchased by the District or requiring licensing from the manufacturer shall be registered in the name of the District. A record of purchase, licensing, and equipment on which the software is loaded will be provided to the District's IT staff.

Employees using the District's computers and related information systems represent the District and, therefore, should ensure that their actions do not harm or damage the District's interests or image.

1. The conduct of employees accessing the internet or email via District hardware shall be ethical and lawful at all times.
2. Employees are responsible for the content of all text, audio, or images they place or send over the internet with District equipment and resources.
3. Outgoing messages, whether by e-mail, internet transmission, or any other means must be accurate and appropriate.
4. No employee shall misrepresent the District in any way when using the District's computers or related systems.
5. Employees may not send/upload copyrighted materials, confidential information, proprietary information, or similar materials to third parties without appropriate authorization.
6. Employees may not violate the copyright laws in regard to receipt/download of materials available on the Internet by copying and disseminating information, except for purposes falling under the category of "fair use."
7. Fraudulent, harassing, or obscene messages are prohibited, as is abusive, profane or offensive language.
8. Email is neither secure nor private; it is unencrypted and easily readable by internet hackers. Email messages should not contain anything that should be kept private or confidential. Sensitive attachments should be password protected or otherwise secured.
9. Email correspondence should be treated as business correspondence, and should conform to appropriate professional standards.

10. Email messages are considered company records; consequently, they are subject to legal “discovery” procedures in the same manner as any hard-copy documentation. Good judgment should be used at all times.
11. The following uses of District computers and related resources are expressly prohibited:
 - a. Any use which violates federal, state, or local laws or regulations.
 - b. Illegal use of copyrighted materials
 - c. Access, storage, or transmission of any type of pornographic or obscene material
 - d. Use of any racially, sexually, or religiously harassing material
 - e. Sending material of a racial, sexual or political nature
 - f. Access, storage, or transmission of messages or images that harass, disparage, or encourage discrimination against others on the basis of race, national origin, sex, sexual orientation, age, disability, religious belief, or other protected status
 - g. Sending abusive, profane, offensive, fraudulent, harassing, obscene or threatening messages
 - h. Placing information, files, or software that could be deemed offensive or defamatory on any system
 - i. Accessing web sites or transmitting files related to sex, illegal drugs, criminal activities, hate groups or hate speech, or online gambling
 - j. Sending or forwarding of email chain letters
 - k. Actions which interfere with or negatively affect the operation of computers or networks, whether the District’s or another organization’s
 - l. Unauthorized attempts to break into any computer or circumvent system or network security
 - m. Use of the District’s computers or related resources for the introduction of worms, viruses, or other malicious software to any computer system
 - n. Operating a personal business
 - o. Emailing or unsecured uploading or posting of any potentially sensitive or confidential information
 - p. All games (whether used before, after, or during work hours)

Employees will seek to protect the District's information, including information regarding District customers, subject to the State of Ohio's "Sunshine Laws" and other public records requirements.

1. In general, information on the District's computers and related systems is public record. However, some information should be considered confidential. Such confidential information includes, but is not limited to, certain financial information for customers and employees, employee medical information, certain personnel records, and social security numbers.
2. Unauthorized access to, or attempted access to, confidential information is prohibited.
3. Unauthorized disclosure of confidential information to other employees or to third parties is prohibited.
4. Emailing or similar transmission (including transmission via unsecured ftp) of confidential information over the internet is prohibited.
5. Unauthorized copying of confidential information to removable media such as floppy disks, CDs, DVDs, or flash drives is prohibited.
6. Passwords and computer access codes should not be disclosed to other individuals, except to supervisors or members of the District's IT staff or the District's IT consultants or authorized business partners.
7. If computer passwords are written down, they should be stored securely and separately from the equipment to which the passwords apply.
8. Each computer user is responsible for all actions performed on his/her account and should take precautions to prevent its unauthorized use.
9. Users should ensure that remote work sessions such as Webex, GoToAssist, PCAnywhere, or Remote Desktop are terminated when complete.
10. No user shall attempt to access password-protected systems for which the user does not have an assigned password. This

includes knowingly accessing a computer or software system that has been logged open by another user.

11. Employees are responsible for ensuring that data files and other forms of information for which they are responsible are backed up in an acceptable manner. In general, data residing on the District's servers is backed up on a nightly basis. Consequently, employees should generally keep important files and documents on one of the servers (e.g., in their personal folder on the P: drive).
12. Employees who use their local drive (C: drive) for day-to-day work should regularly copy important files to a server.

The District reserves the right to review and monitor all computers and related systems. Users should have no expectation of privacy with respect to materials or information created, transmitted, or stored on these systems.

1. The District's electronic communications systems and all information transmitted or received by, or stored or contained in the electronic communications systems are the District's property. No employee shall have any property rights in or expectation of privacy with respect to such information, even if of a personal nature.
2. The District and its authorized representatives may access, use, review, store, delete, and copy any information on the District's computers or related resources without the consent of the employee who created, sent, or received such information at any time. All data created, sent, or received is the property of the District and should be considered public information. No employee shall have any property rights in or expectation of privacy with respect to such information, even if of a personal nature
3. The District reserves the right to access and monitor all messages, files, and activity on the corporate network or on desktop or laptop workstations at any time.
4. The District reserves the right to review, monitor, and inspect movable media including but not limited to hard disks, floppy disks, CDs, DVDs, and flash drives, including data saved on such media, at any time and without advance notice. Users should have no expectation of privacy with respect to materials and information created, transmitted or stored on these systems.

5. The employee understands that the District will monitor usage of computer systems on a regular basis. There should be no expectation of privacy for usage on the computer system by company employees.
6. Employees should be aware that all data and communications on the District's computers and related systems, including text and images, can be disclosed to law enforcement without prior consent.
7. E-mail can be monitored at any time and without warning.
8. The District can and will monitor and log employee internet access. Each web page or file that is viewed or retrieved may be reviewed at any time.
9. The District reserves the right to block inappropriate web pages and sites.
10. The District reserves the right to place restrictions on the size of user directories to protect system and network resources.

Discipline

Failure to comply with these guidelines, whether intentional or unintentional, can result in disciplinary action. Depending on the level and number of infractions, such action can include termination of employment, including termination for a significant one-time breach.

Employee Discipline Procedures

ORC 124.34, 124.388

Classified Employees

The purpose of discipline is to correct an employee's performance and/or conduct. Due to its serious and formal nature, discipline shall be initiated only when other methods of correcting the employee's performance have been tried and have failed to result in improved performance. Such methods can include a mandatory referral to the Employee Assistance Program. Any corrective action/discipline shall be documented in writing and placed in the employee's personnel file.

While classified employees hold their positions during good behavior and efficient service, poor job performance or inappropriate behavior including incompetency, inefficiency, dishonesty, drunkenness, immoral conduct, insubordination, discourteous treatment of the public, neglect of duty, violation of any policy or work rule of the Appointing Authority, violation of Chapter 124 of the Ohio Revised Code, any other failure of good behavior, any other acts of misfeasance, malfeasance, nonfeasance in the office, or conviction of a felony, can lead to disciplinary action against an employee.

Disciplinary action includes the following: removal, suspension, fine, reduction in pay, reduction in position, and a last chance agreement.

Normally, discipline will be progressive in nature as noted below.

- 1st Verbal Warning
- 2nd Written Reprimand
- 3rd Suspension/Reduction in Pay or Position/Fine
- 4th Discharge/Termination

Serious infractions can result in immediate discharge without intermediate discipline. Examples of such offenses include but are not limited to:

- Intoxication on District property during work hours
- Possession of intoxicants or illegal substances on District property for use during work hours
- Gambling on District property
- Fighting on District property
- Harassment
- Stealing
- Immoral behavior
- Destruction of property
- Insubordination
- Conviction of a criminal charge
- Dishonesty

Possession of unauthorized firearms on District property
Personal Harassment
Falsification of attendance and/or time records or sick leave abuse
Unauthorized leave of absence
Willful neglect of duty

Employees are entitled to a pre-disciplinary hearing before any suspension, discharge, reduction in pay or position, or fine becomes effective. Employees in their probationary period are not entitled to pre-disciplinary hearings. The President will review the independent pre-disciplinary decision before deciding upon appropriate disciplinary action.

In the case of a reduction, suspension or fine of more than 40 work hours in the case of an FLSA exempt employee, a suspension or fine of more than 24 work hours in the case of a non-exempt employee, or removal, except for the reduction or removal of a probationary employee, the President shall serve the employee with a copy of the order of reduction, fine, suspension, or removal, which shall state the reasons for the action. A copy of the action shall become part of the employee's permanent personnel file.

The President may require an employee who is suspended to report to work to serve the suspension. An employee serving a suspension in this manner shall continue to be compensated at the employee's regular rate of pay for hours worked. Such disciplinary action shall be recorded in the employee's personnel file in the same manner as other disciplinary actions and has the same effect as a suspension without pay for the purpose of recording disciplinary actions.

At the discretion of the President, a last chance agreement shall be signed by both the President and an employee of the District that describes the type of behavior or circumstances that, if it occurs, will automatically lead to removal of the officer or employee without the right of appeal to the state personnel board of review or the appropriate commission.

The President may, in its discretion, place an employee on administrative leave with pay only in circumstances where the health or safety of an employee or of any person or property entrusted to the employee's care could be adversely affected.

The President may, in its discretion, place an employee on administrative leave without pay for a period not to exceed two months, if the employee has been charged with a violation of law that is punishable as a felony. If the employee subsequently does not plead guilty to or is not found guilty of a felony with which the employee is charged or any other felony, the District shall pay the employee at the employee's base rate of pay, plus interest, for the period the employee was on the unpaid administrative leave.

Unclassified Employees

Unclassified employees are held accountable for their job performance. Inappropriate activities such as employee misconduct or non-compliance with policy and procedures may lead to disciplinary action against the employee. The Appointing Authority has the discretion to impose sanctions immediately ranging from verbal warnings to immediate discharge without due process.

The use of due process does not alter the status of an unclassified employee.

Reductions in Pay or Position (Demotions)

ORC 124.34

A demotion is the placement of an employee to a lower level position with the same or lower salary. A demotion may be imposed as a disciplinary action or may be requested by the employee. The salary of the employee is governed by the salary range established for the new position.

Voluntary demotions, those done at the request of the employee, are not detrimental to the employee's work record and generally do not affect opportunities for future promotions.

Grievance Procedures

In the event that a non-bargaining unit employee has a complaint related to a work assignment, or other work related matter, the employee may bring the matter to his/her immediate Supervisor for resolution.

If the problem is not resolved, the employee may take it to the next responsible Supervisor or Department Head.

If the employee still feels the problem needs resolution, he/she may submit the problem, in writing, to the President. The President will conduct a hearing at which time the employee may present any relevant evidence to support the complaint.

If the employee still feels the problem needs resolution, he/she may submit the problem, in writing, to the Clerk of the Board of Trustees on behalf of the Board. The Board of Trustees will conduct a hearing at which time the employee may present any relevant evidence to support the complaint.

Performance Reviews

Non-bargaining employees shall meet with their supervisors on an annual basis to discuss performance related issues. The evaluation is used to record the overall quality of employees' work performance, indicate desirable capabilities, set goals and identify the work, attitude, and/or behavior needing improvement.

Employees also receive performance reviews at the completion of their probationary period.

A Supervisor may recognize unusual excellence or deficiencies in an employee's work with a special performance evaluation conducted at any time.

7. Use any substance that indicates that mental functioning, motor skills or judgment may be adversely affected without reporting such to his/her supervisor.
8. Perform a safety-sensitive function when the employee uses controlled substances, except when prescribed by a physician who has determined that the substance will not adversely affect the employee's ability to safely perform his/her work duties.

V. Testing for Prohibited Substances

- A. General Procedures

1. All employees subject to this policy shall be subject to pre-employment, post-accident, reasonable suspicion, random and return-to-duty testing.
2. Any employee who is reasonably suspected of being intoxicated, impaired under the influence or not fit for duty shall be suspended from his/her job duties pending an investigation and verification of his/her condition.
3. The District will contract for drug and alcohol testing services to comply with ODOT regulations.
4. Testing shall be conducted to assure a high degree of accuracy and reliability and will use techniques, equipment and laboratory facilities which have been approved by the U.S. Department of Health and Human Services (DHHS). All testing will be conducted consistent with the procedures set forth in 49 CFR Part 40, and as amended.
5. Tests will be conducted for marijuana, cocaine, opiates, amphetamines and phencyclidine. Upon reasonable cause, the District will test for other illegal drugs. In such event, a second urine sample will be provided by the employee.
6. An initial drug screen will be conducted on each specimen. For those specimens that are not negative, a confirmatory gas Chromatography/ Mass Spectrometry (GC/MC) test will be performed. The test will be considered positive if the amounts present are above the minimum thresholds established in 49 CFR 40, as amended.
7. Tests for alcohol concentration will be conducted utilizing a National Highway Traffic Safety Administration (NHTSA) - approved evidential breath testing device (EBT) operated by a trained breath alcohol technician (BAT). If the initial test indicates an alcohol concentration of 0.02 or greater, a second test will be performed to confirm the results of the initial test.
 - a. An employee who has a confirmed alcohol concentration of greater than 0.02 but less than 0.04 will result in removal from his/her position for twenty-four (24) hours unless a re-test results in a concentration measure of less than 0.02.
 - b. During the twenty-four (24) hour period of time that an employee has been removed from his/her position, he/she will have the option of utilizing accrued leave time, i.e., sick leave, vacation

leave, compensatory time, or other appropriate time, in order to remain in a paid status. If the employee elects not to utilize his/her accrued leave, then he/she will be placed in an unpaid status.

- c. If the employee has a confirmed alcohol concentration of greater than 0.02 but less than 0.04 on any subsequent alcohol test, then he/she will be subject to termination.

Any employee who has a confirmed positive drug or alcohol (0.04 or greater) test will be removed from his/her position, informed of educational and rehabilitation programs available and evaluated by a substance abuse professional (SAP). Employee assessment by a SAP is detailed in Section IX of this policy.

VI. When Testing is Required

A. Pre-Employment Testing

- 1. Prior to the first time an employee performs safety-sensitive functions for the District, the driver shall undergo testing for alcohol and controlled substances. No driver shall perform safety-sensitive functions unless the driver has been administered an alcohol test with a result indicating an alcohol concentration less than 0.04, and has received a controlled substances test result from the medical review officer indicating a verified negative test result.
- 2. Exceptions to pre-employment testing shall be granted in accordance with 49 CFR section 382.301.

B. Post-Accident Testing

- 1. As soon as practicable following an accident involving a commercial motor vehicle, each surviving driver shall be tested for alcohol or controlled substances, if:
 - a. He/she was performing safety sensitive functions with respect to the vehicle if the accident involved the loss of human life; or
 - b. He/she receives a citation under state or local law for a moving traffic violation arising from the accident.
- 2. A driver will be tested for alcohol within two (2) hours of an accident. If an alcohol test is not accomplished within two (2)

hours of an accident, then a written record shall be made stating the reasons the alcohol test was not promptly administered. If the alcohol test has not been accomplished within eight (8) hours following notification, the District shall stop its attempt to administer the alcohol test and it shall make and retain in the file a record of the reasons the alcohol test was not properly administered.

3. If a driver has not submitted a controlled substance test within thirty-two (32) hours of an accident, the District shall stop its attempt to administer the controlled substance test. It shall then make and retain in file a record of the reasons a controlled substance test was not properly administered.
4. A driver who is involved in an accident must refrain from alcohol use for eight (8) hours following an accident or until he/she undergoes a post-accident alcohol test. Drivers who leave the scene of an accident without a justifiable explanation prior to submission to drug and alcohol testing will be considered to have refused the test, and they will be subject to termination.
5. A driver who is seriously injured and cannot provide a specimen at the time of the accident shall provide the necessary authorization for obtaining medical reports and other documents which would indicate whether there were any alcohol or controlled substances in his/her system at the time of the accident.
6. The District can use, by permission from the Federal Highway Administration, post-accident tests conducted by federal, state or local officials as meeting the requirements of this section under the following conditions.
 - a. The official must have independent authority to conduct the test.
 - b. The test must conform to federal, state, or local requirements.
 - c. Alcohol tests require blood or breath samples.
 - d. Controlled substance tests require a urine sample.

C. Random Testing

1. Except as may be charged by the Federal Highway Administration, the minimum annual percentage rate for random alcohol testing shall be 25 percent of the average number of driver positions.

2. The minimum annual percentage rate for random controlled substances testing shall be 50 percent of the average number of driver positions.
3. Employees will only be tested randomly for alcohol when they are performing safety-sensitive functions, immediately prior to, or after performing safety-sensitive functions.
4. After an employee has been randomly selected for a test, the employee must immediately proceed to the testing site upon notification of being selected.
5. If an employee, who has been randomly selected for a test is on vacation or other pre-approved form of leave, the District may either select another employee, as an alternate, or keep the original selection confidential until the employee returns to duty.

D. Reasonable Suspicion Testing

1. Alcohol: A driver must submit to urine and/or breath testing when reasonable suspicion exists that the driver has an alcohol concentration between 0.02 and 0.04 or greater or has consumed alcohol within four hours of performing a safety sensitive function. The District's "reasonable suspicion" must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver.
2. Controlled substances: A driver must submit to a controlled substance test when reasonable suspicion to be that a driver has used or is under the influence of controlled substances. The District's reasonable suspicion must be based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of the driver and may include indications of the chronic and withdrawal effect of controlled substances.
3. Alcohol testing is authorized by this section only if the observations required are made during, just preceding, or just after the period of the work day that the driver is required to be in compliance with this part. A driver may be directed by the employer to only undergo reasonable suspicion testing while the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing such functions.

4. Reasonable suspicion determinations will be made by a supervisor. The District will provide supervisors with a minimum of 60 minutes of training on alcohol misuse, and a minimum of 60 minutes of training on controlled substance abuse. Training shall include: physical behavior, speech and performance indicators consistent with alcohol and controlled substance use and misuse.
5. Once an employee has been notified that a reasonable suspicion test will be conducted it must take place within two (2) hours of the notification. If the test is not accomplished within two (2) hours a written record shall be made stating the reasons the alcohol test was not promptly administered. If the test has not been accomplished within eight (8) hours following notification, the District shall stop its attempt to administer the test and make and retain in file a record of the reasons the alcohol test was not properly administered.
6. A written record shall be made documenting the employee's conduct with respect to an alcohol and/or controlled substance reasonable suspicion test and must be signed by the supervisor or official who observed the behavior.

E. Return-to-Duty Testing

1. Before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited Section IV of this part concerning alcohol, the driver shall undergo a return-to-duty alcohol test with a result indicating an alcohol concentration of less than 0.02.
2. Before a driver returns to duty requiring the performance of a safety-sensitive function after engaging in conduct prohibited by Section IV concerning controlled substances, the driver shall undergo a return-to-duty controlled substances test with a result indicating a verified negative result for controlled substances use.

VII. Test Related Procedures

A. Follow-up Testing

1. Following a determination that a driver is in need of assistance in resolving problems associated with alcohol misuse and/or use of controlled substances, that driver is subject to unannounced follow-up alcohol and/or controlled substances testing as directed by a substance abuse professional.

2. Follow-up alcohol testing shall be conducted only when the driver is performing safety-sensitive functions, just before the driver is to perform safety-sensitive functions, or just after the driver has ceased performing safety-sensitive functions.
3. There will be a minimum of six follow-up controlled substance and/or alcohol tests in the first 12 months following re-entry to the job. Follow-up testing may be extended for up to 60 months following an employee's return-to-duty.

B. Employee Requested Split Sample Test

1. Any driver who questions the results of a required drug test may request that an additional test be conducted. This test must be conducted at a different testing DHHS-certified laboratory. The test must be conducted on the split sample that was provided at the same time as the original sample. All costs for such testing are paid by the employee, unless the second test invalidates the original test.
2. The employee's request for a split sample test must be made within 72 hours of notice of the initial test result. Requests after 72 hours will only be accepted if the delay was due to documentable facts that were beyond the control of the employee.

C. Refusal to Test

1. Any driver who refuses to comply with a request for testing, who provides false information in connection with a test, or who attempts to falsify the test results through tampering, contamination, adulteration or substitution shall be subject to termination.

D. Employee Assessment and Treatment

1. Any driver who tests positive for the presence of controlled substances or alcohol above the minimum thresholds set forth in 49 CFR Part 40, as amended, will be evaluated by a Substance Abuse Professional (SAP). The SAP will evaluate each employee to determine what assistance, if any, the employee needs in resolving problems associated with prohibited substance abuse or misuse. SAP services will be provided by an appropriate certified professional who implements an employee assistance program for the District.

2. The District will consider employees who test positively to be medically unqualified and they shall be disqualified from working for the District until they have been released to return-to-duty by the SAP. Drivers will be allowed to elect rehabilitation through available sources in lieu of discipline the first time that they have a positive result on an alcohol or controlled substance test. However, rehabilitation in lieu of discipline may not be available where the offense giving rise to the discipline is so severe as to make the employee ineligible for continued employment.
3. For those seeking treatment, whether voluntarily or by reason of mandatory rehabilitation in lieu of discipline, the employee benefits that would otherwise be available to the employee shall continue--for example, sick leave, leaves of absence, vacation leave, personal business leave, compensatory leave, Family Medical Leave, and group health insurance benefits.
4. If an employee is allowed to return-to-duty, he/she must follow the rehabilitation program prescribed by the SAP. The employee must pass return-to-duty drug and alcohol tests and unannounced follow-up tests for a period of one to five years. The costs associated with any treatment for rehabilitation services shall be paid directly by the employee or his/her insurance provider.
5. Assessment by a SAP does not shield an employee from disciplinary action or guarantee employment or reinstatement with the District.

E. Employee Discipline

1. A driver with an alcohol concentration more than 0.02 or greater or a positive controlled substance test will be subject to discipline and/or termination.
2. A driver who is eligible for assessment and treatment in lieu of termination will still be subject to discipline.
3. Any driver who refuses to test for alcohol or controlled substances will be terminated.
4. Any employee who refuses or fails to comply with District requirements for treatment, after care, or return-to-duty shall be subject to termination.

5. If a driver is permitted to undergo treatment in lieu of termination and he subsequently tests positive on any alcohol or controlled substance test, he/she will be terminated.

F. Record Retention and Release

1. A Medical Review Officer (MRO) will serve as the sole custodian of individual test results and will retain individual test results for the time periods listed below:

 - 4. The District will notify incumbent employees of the results of random, reasonable suspicion, and post-accident alcohol and/or controlled substance tests, provided that the results are positive and will also advise the employee what controlled substance was detected or the alcohol level that was discovered.
 - 5. The District will not release driver testing information retained in this section except upon the written consent of the driver and except:
 - a. When requested by the Department of Transportation or any state or local officials with regulatory authority over the District or its drivers.
 - b. In the event an employee initiates a grievance, hearing, lawsuit or other action as a result of an alcohol and/or controlled substance test conducted pursuant to this policy.
 - 6. The annual calendar year summary of the results of the alcohol and drug testing programs must be completed by March 15 of the following year. This will be completed by the President or his designee.

VIII. Information from Previous Employers

- A. The District may obtain, pursuant to a driver's written consent, any of the information concerning the driver which is maintained under this part by the driver's previous employers.
- B. The District shall obtain, pursuant to a driver's consent, information on the driver's alcohol tests with a concentration result of 0.04 or greater, positive controlled substances test results, and refusals to be tested, within the preceding two years, which are
